

# URBAN SALVAGED & RECLAIMED LUMBER

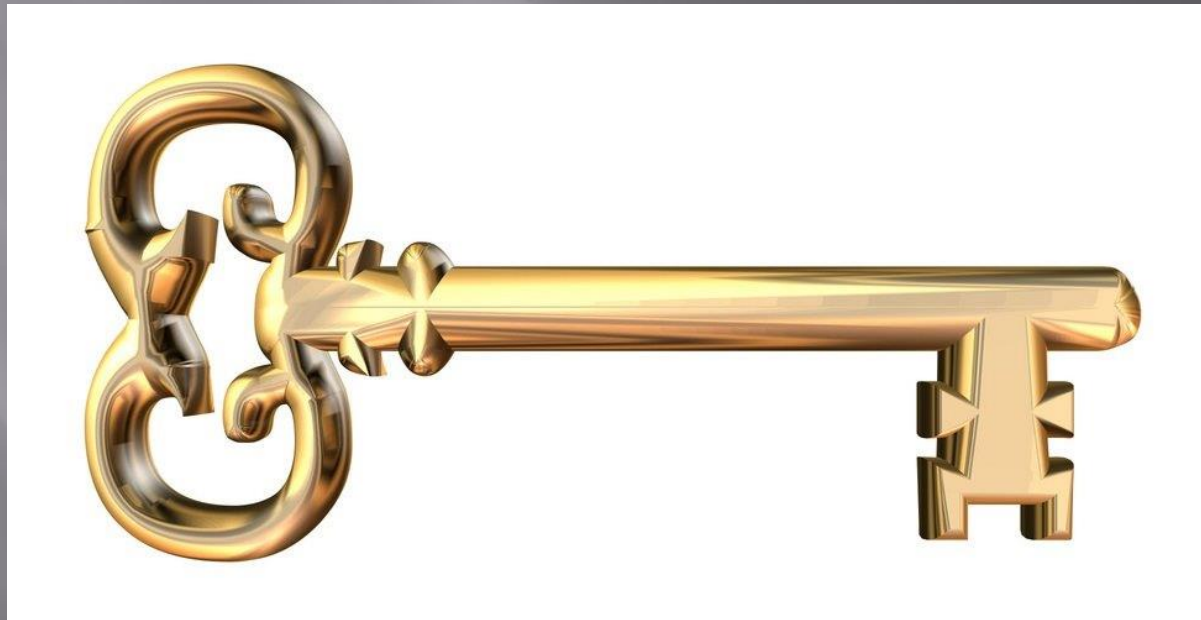

- Reduced equipment costs
- Reduced energy costs
- Reduced blades costs
- Reduced labor costs, (and little to no Workman's comp)
- Reduced trucking costs

- ▣ Overall Goal & Objectives:
- ▣ 1) Establish and expand Portable Sawmill Network – Formalize and increase a network of sawmill operators to use salvaged logs to improve production efficiencies and markets for these products.
- ▣ 2) Central Portable Sawmill Remanufacturing/Marketing Hub - Establish a central remanufacturing/marketing hub to process and market product supplied by sawyer network.
- ▣ 3) Sales and Markets – Increase sales and expand markets by diversifying green and kiln-dried product mix, and coordinating production capacity of portable sawmill network

# Cooperate and Network
